CGN To Present At The 11th Annual IQPC Lean Six Sigma & Process Improvement Summit 2010

January 18 - 21, 2010 - Buena Vista Palace Hotel & Spa, Orlando, FL

Peoria, Illinois – November 16, 2009 – Navneet Arora, CGN Partner, and Mark Bidlake, CGN Associate Partner, will be presenting at the IQPC Six Sigma & Process Improvement Summit on Tuesday, January 19, 2010 in Orlando, FL.

The Lean Six Sigma & Process Improvement Summit, now in its 11th year, is recognized as the largest, leading Process Improvement meeting venue for L6S professionals. The four day summit offers industry professionals with thought leadership and cutting-edge strategies on business topics such as operational and process transformation, cost reduction, process improvement strategies for profit generation, the customer experience, innovation, and talent development.

Navneet and Mark will be presenting insights on High Velocity Lean Transformation, which is CGN's unique approach to delivering custom-tailored solutions that produce substantial and sustainable results for clients. Over the past fifteen years, through multiple engagements across different industries, CGN has developed a powerful blend of methodologies, using lean six sigma approaches, and applied them to performance improvement and organizational change initiatives.

About CGN & Associates:

CGN is a business performance consulting firm with a presence in the US, China, India, and Europe. For over two decades, CGN has partnered with Fortune 500 companies and government agencies to develop innovative solutions and adaptive business models that deliver high-impact, sustainable business solutions. CGN provides specialized service offerings in areas of lean operations and supply chain, lean office and digitization, lean product development, supplier collaboration and performance management, human capital management, and business analytics and simulation.
